letter of 16 October 1943 from the  
Director of Central Intelligence to the  
Archivist of the United States.

1. The Gema plant in Berlin-Köpenick has been partly re-equipped, but most of the activity there is of a research nature. Development work is going forward for the production of radar equipment, frequency meters, selectivity equipment, and frequency antennas. The finished results are sent to the USSR; there is no intention of manufacturing this equipment in Berlin.
2. One Gema department, reserved for reparations deliveries, is working on the production of radio receiving equipment.
